

RIVERFLOW 2018

4 - 8 SEPTEMBER 2018

LYON - FRANCE

IRSTEA

Retrouvez-nous sur
le web
www.shf-hydro.org

Hydraulic structures and their effects on bed flow regime and ecology;

Pollutant and sediment transport in rivers;

River morphodynamics and restoration;

Flow dynamics during extreme events

Pour mieux affirmer ses missions, le Cemagref devient Irstea.

Host: the hosting institution will be IRSTEA (formerly Cemagref). The Hydrology & Hydraulic research Unit includes about 15 permanent full-time researchers and 10 Phd students.

ONLY LYON 
TOURISME ET CONGRÈS

Lyon is the second university center in France and welcome many Conferences in Hydraulics. Among the various disciplines favored in Lyon are engineering and particularly Fluid Mechanics;
