

EVAN CONFERENCE 2019

invest in a great display

Build connections with people, on a social level as well as a professional one

Get the bigger picture

Create collaborations

Gain exposure

Keep up to date with the field

Present your research and get exposed to new ideas

Contribute to an innovative platform

Get a sense of intellectual community

The aim of the conference is to bring together and promote interchange between a diverse community of research scientists, students, practitioners and stakeholders concerned with the application of extreme value analysis to Natural Hazards

This is your chance to

- Network with peers
- Encounter new vendors and suppliers
- Position yourself as an expert

Partner with SHF and bring your organization to the fore during the conference through the visibility options :

| | |
|--|--|
| <i>Your logo on all communications +</i> | |
| <i>Flyers and adds added to all conference participants bags & a short presentation of your organisation in the book of abstract</i> | <i>550 euros</i> |
| <i>Special services during the conference (bags; travels; opening & closing sessions; coffee breaks...)</i> | <i>Consult Carole Paplorey</i> |
